

## Senior Full-Stack Software Engineer (m/f/x) at BurdaForward Italia (Application-Deadline: 31.8.2019)

BurdaForward is the digital media house of the future. Our strong network is based on the journalistic brands FOCUS Online, CHIP, Finanzen100, NetMoms, The Weather Channel, EFAHRER.com and cardscout. We already inspire more than every second internet user in Germany!

BurdaForward is part of Hubert Burda Media, a family company with values. As a publishing house that has been writing media history for more than a hundred years Hubert Burda Media assumes social responsibility by supporting cultural and social organizations to this day.

At BurdaForward we have a common mission: to support and provide people with individual, reliable and solution-oriented content throughout the day and help them lead a better life.

We combine first-class journalism with innovative technology and we happily welcome anyone who wants to join us!

### What you could expect...

**Ciao Bari! We've opened our new BurdaForward tech office in beautiful Bari this year and we're looking for great people to join our team!**

When joining BurdaForward you will find start-up spirit and professional long-term perspectives in a technology-driven environment. Your contribution matters, and you are enabled to grow - personally and professionally. Let's shape the media of tomorrow together!

We are looking for a results-driven Senior Full-Stack Software Engineer (m/f/x) who will work in a scrum team to develop a new publishing application for digital media and improve our existing platform and services. The Senior Full-Stack Software Engineer (m/f/x) will use his or her understanding of programming languages, patterns and modern tools to develop the application architecture, product features and services, the scalability, automation and security of the application according to industry standards.

### Your tasks:

- Defining and building the application architecture and defining the stack
- Development of new features and services in close collaboration with the Product Owner and the development team
- Close cooperation, communication and coordination across all BurdaForward teams, such as Operations and Data Science
- Guiding the junior developers

### What we would wish for...

- Solid experience as a Full-Stack Developer / Software Engineer (m/f/x)
- Good knowledge of state-of-the-art backend technologies, such as serverless frameworks (AWS Lambda), node.js and other JS frameworks (e.g. Angular)
- Solid knowledge of frontend technologies (HTML, CSS, JS) and corresponding frameworks (e.g. Angular)
- Experiences with JavaScript ES6-ES7 and TypeScript in both frontend and backend are welcome
- Good experiences with NoSQL Databases
- RESTful API, JSON, XML, AMP, microservices, web protocols, event driven architectures
- Quality is important, automated testing and clean code are obvious
- Strong problem-solving skills
- Bachelor's or master's degree in computer programming, computer science, or a related field or many years of field experience
- Minimum of 3 years of working experience in designing and developing web applications and architectures

### What we offer...

- At BurdaForward you will find a technology-driven environment in which your contributions matter and you are enabled to grow – personally and professionally
- Have an impact - you have the possibility to shape our new tech center from the very beginning!
- We encourage an open and direct communication.
- We are a 100% subsidiary company of Hubert Burda Media – this implies a unique compatibility of startup-spirit and professional long-term perspectives.
- You will work at a modern workplace in our freshly opened office! (Via Oberdan 40, 70126 Bari)

### Your application:

If you think this position fits to you and that you can help us to have a successful start in Bari, we would be delighted to talk to you. Our team is looking forward to receiving your English application – including your CV, certificates, salary expectations and your earliest possible starting date – via our online application platform.
