Frontend Engineer (m/f/x) at BurdaForward Italia (Application-Deadline: 31.8.2019)

BurdaForward is the digital media house of the future. Our strong network is based on the journalistic brands FOCUS Online, CHIP, Finanzen100, NetMoms, The Weather Channel, EFAHRER.com and cardscout. We already inspire more than every second internet user in Germany!

BurdaForward is part of Hubert Burda Media, a family company with values. As a publishing house that has been writing media history for more than a hundred years Hubert Burda Media assumes social responsibility by supporting cultural and social organizations to this day.

At BurdaForward we have a common mission: to support and provide people with individual, reliable and solution-oriented content throughout the day and help them lead a better life.

We combine first-class journalism with innovative technology and we happily welcome anyone who wants to join us!

What you could expect…

Ciao Bari! We've opened our new BurdaForward tech office in beautiful Bari this year and we're looking for great people to join our team!

When joining BurdaForward you will find start-up spirit and professional long-term perspectives in a technology-driven environment. Your contribution matters and you are enabled to grow - personally and professionally. Let's shape the media of tomorrow together!

This position would be for our BurdaForward brand **CHIP** which is the adviser for the digital world and operates one of the largest technology test centers of Europe. The website CHIP Online is Germany's No. 1 website for computers, mobile and home entertainment and reaches 17.12 million unique users in a single month (AGOF digital facts 2018-08).

We are looking for a results-driven Frontend Engineer (m/f/x) who will work in a scrum team to develop, troubleshoot and improve the Frontends of our Applications. The Frontend Engineer (m/f/x) will use his, her or its understanding of programming languages, patterns and modern tools to develop platform features and services, the scalability, automation and security of the platform according to industry standards.

Your tasks:

- Development of our HTML frontends, using and extending our style guide components.
- Adaptation and expansion of our frontend development tools.
- Optimize site performance and set up A / B tests in order to deliver the best user experience for our visitors
- Close communication with the teams of UX / VX, reaction, web analytics and sales

What we would wish for...

- You have a degree in computer science or a comparable, subject-related training and have already gained experience in the development of web applications
- Very good knowledge in HTML5, CSS and Javascript, ideally experience with offshoots like AMP, SASS or TypeScript
- Solid experience with development tools such as Gulp, Webpack and NPM Safe handling of git (merge, branch)
- Experience in using PHP, Symfony and Twig is helpful
- You are used to measuring the success of technical measures in business-relevant KPIs (traffic, revenue, user satisfaction)
- You are fluent in English, spoken and written
- It's fun to bring in your own knowledge and experience
- Motivation for personal and professional development

What we offer...

- At BurdaForward you will find a technology-driven environment in which your contributions matter and you are enabled to grow – personally and professionally
- Have an impact - you have the possibility to shape our new tech center from the very beginning!
- We encourage an open and direct communication.
- We are a 100% subsidiary company of Hubert Burda Media – this implies a unique compatibility of startup-spirit and professional long-term perspectives.
- You will work at a modern workplace in our freshly opened office! (Via Oberdan 40, 70126 Bari)

Your application:

If you think this position fits to you and that you can help us to have a successful start in Bari, we would be delighted to talk to you. Our team is looking forward to receiving your English application – including your CV, certificates, salary expectations and your earliest possible starting date – via our online application platform.
