

Company:

LifeSciences Consultants was founded in April 2004 by professionals from major global consultancy firms and has been growing double digits since then. Our business interest is uniquely within Lifesciences, Pharmaceutical and Biotech. Our major clients are among the largest Corporations in the industry. Assignments cover Strategy, Marketing and Sales, cases in markets like USA, EMEA and LATAM.

We receive encouragement and appreciation by all our clients for our delivery dedication and expert insight. To respond to a continuously growing demand we are currently recruiting at multiple seniority level in all our offices to grow our consulting staff which in 2016 has employed around 30 consultants.

A fast track career at LSC demands strong leadership, initiative, international mindset, and acquired expertise. We will offer you the opportunity to work for Global Pharma Leaders, an international team of talented colleagues and full exposure to a variety of engagement-based responsibilities. In addition, you will be part of a learning and development program aimed at increasing your market knowledge and accelerating your career opportunities.

We regularly sponsor structured education programs (for instance, in a Master format) to further enhance our consultants confidence and industry-specific knowledge.
